

# NORTHERN STRANDS

## WIRE ROPE SOCKETING STAND

Northern Strands has developed a portable solution specifically for rope capping to make the application process easy, safe and straightforward. The socketing stand is tall enough to accommodate the 30 rope diameter bending radius when exiting the socket, and is equipped with hydraulic jacks connected to a plate that can be used in conjunction with 2-Bolt Blocks to pull the broom down into the socket with ease. The socketing stand is intended to replace the use of come-a-longs or boards, which have been used at times to pull or pry the broom into the socket, with an easy to use apparatus that can also store the tools and equipment that are used during the socketing job.

## WIRELOCK® SOCKETING SEMINARS

Wirelock® socketing compound has been the best solution for the safe, dependable and high performance termination of wire ropes for over 60 years.

Northern Strands' Wirelock® Socketing Seminar is designed for anyone who is or will be required to terminate wire rope using Wirelock® resin and socket style terminations.

Northern Strands Wirelock® Socketing Seminar:

- Provides you a Wirelock® manual that is integral to socketing.
- Gives a brief theory session - a majority of the course is hands-on.
- Instructs on the proper application of Wirelock® Socketing compound while using a Wire Rope Socketing Stand.
- Proves the efficiency of your sample sling via destructive pull testing at our state of the art facility.

Northern Strands is able to accommodate this training seminar on-site, provided a suitable work area is available, or at one of Northern Strands' facilities.
